EDUCATION

2022 - Present (2026) **University of the Thai Chamber of Commerce (UTCC) GPAX : 3.52**
Science and Technology Bachelor of Science Program in Computer Science

EXPERIENCE AND MY PROJECT

UTCC Lost & Found System

<https://github.com/Phxtanes/Unifind-jing>

Develop game by UE5

https://github.com/kritaAu/Final_Jing

UX / UI Designer & Front-end Developer

MAY 2024 - September 2024

UX / UI Designer & Fullstack Developer

APRIL 2024 - Present

UNIFIND

Developed a web application for the **Student Affairs Office** to record and track lost items, enabling staff to log item **check-in/check-out** for easier management and verification. With future plans to allow students to post lost item reports directly through the system.

UTCC - Phobia

Developed a 3D horror game using **Unreal Engine 5**, inspired by the UTCC campus environment. Designed 3D models, gameplay mechanics, and showcased the project through a YouTube demo to highlight interactive storytelling.

Gold pawn system - ระบบจำนำทอง (Private Sector)

Worked as **UX/UI Designer** and **Frontend Developer**, designing and developing user interfaces with Vue.js to ensure usability and meet user requirements. Enhanced user experience and created workflow designs to support system operations.

Disabled Persons Employment Report Submission System ระบบส่งรายงานการจ้างงานคนพิการ (Government)

Responsible for **UX/UI design**, **Frontend development** with **Vue.js**, and **Backend development** with **Lumen**. Gathered requirements from clients and designed nearly the entire website. Developed a **Drag & Drop file upload system with APIs** for validation and storage, and implemented a registration workflow to **verify social security numbers and employer accounts through APIs** until completion of the registration process.
